PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Lear Seating Corporation ("Lear" or the "Company") for use in voting at the Annual Meeting of Stockholders (the "Meeting") to be held at The Management Education Center, Michigan State University, 811 West Square Lake Road, Troy, Michigan 48098 on Friday, May 5, 1995, at 10:00 a.m. Eastern Time, and at any postponement or adjournment thereof, for the purposes set forth in the attached notice. This proxy statement, the attached notice and the enclosed proxy are being sent to stockholders on or about March 30, 1995.

The Board of Directors does not intend to bring any matters before the Meeting except those indicated in the Notice of the Meeting and does not know of any matter which anyone else proposes to present for action at the Meeting. If any other matters properly come before the Meeting, however, the persons named in the enclosed proxy, or their duly constituted substitutes acting at the Meeting, will be authorized to vote or otherwise act thereon in accordance with

their judgment on such matters.

If proxies are properly dated, executed and returned, the shares they represent will be voted at the Meeting in accordance with the instructions of the stockholder. If no specific instructions are given, the shares will be voted FOR the election of the nominees for director set forth herein and FOR the ratification of the appointment of Arthur Andersen LLP as independent auditors for the Company in 1995.

A stockholder giving a proxy has the power to revoke it at any time prior to its exercise by voting in person at the Meeting, by giving written notice to the Secretary of the Company prior to the Meeting, or by giving a later dated proxy. Attendance at the Meeting will not automatically revoke a proxy, but a stockholder in attendance may request a ballot and vote in person, thereby revoking a previously granted proxy.

The solicitation of proxies from the stockholders is being made by the Board of Directors and management of the Company, and the cost of solicitation, including the cost of preparing and mailing the Proxy Statement, Proxy, Notice of Annual Meeting and Annual Report, is being paid for by the Company. In addition to solicitation by mail, the Company will request banks, brokers and other custodian nominees and fiduciaries to supply proxy material to the beneficial owners of Common Stock of whom they have knowledge, and may reimburse them for their expenses in so doing.

RECORD DATE, OUTSTANDING SHARES, REQUIRED VOTE AND HOLDINGS OF CERTAIN STOCKHOLDERS

RECORD DATE AND OUTSTANDING SHARES

At the close of business on March 13, 1995, the record date fixed for the determination of stockholders entitled to notice of and to vote at the Meeting, there were outstanding 46,078,048 shares of the Company's common stock, par value \$0.01 per share ("Common Stock"), the only class of voting securities outstanding. Only the record holders of Common Stock as of the close of business on March 13, 1995 will be entitled to vote. The presence at the Meeting, in person or by proxy, of stockholders entitled to cast a majority of the votes which all stockholders are entitled to cast will constitute a quorum. Each share of Common Stock is entitled to one vote, without cumulation, on each matter to be voted upon at the Meeting. See "Election of Directors" and "Ratification of Appointment of Independent Auditors."

REQUIRED VOTE

Only votes cast in person at the Meeting or by proxy received by the Company before commencement of the Meeting will be counted at the Meeting. The three directors to be elected at the Meeting will be elected by a plurality of the votes cast by the stockholders present at the Meeting in person or by proxy and entitled to vote. The ratification of the appointment of the Company's independent auditors will become effective only upon the affirmative vote of stockholders owning in the aggregate at least a majority of the Company's outstanding shares of Common Stock present at the Meeting in person or by proxy and entitled to vote.

With regard to the election of directors, votes may be cast for or withheld from each nominee. Votes that are withheld will have no effect on the outcome of the election because directors will be elected by a plurality of votes cast. An abstention may be specified on the proposal to ratify the appointment of independent auditors. An abstention will be counted as present for purposes of determining the existence of a quorum on such proposal and, therefore, have the effect of a negative vote.

Under the rules of the New York Stock Exchange, brokers who hold shares in street name have the authority to vote on certain routine matters on which they have not received instructions from beneficial owners. Brokers holding shares of Common Stock in street name who do not receive instructions are entitled to vote on the election of directors and the ratification of the appointment of independent auditors.

PENSION PLAN AND BENEFITS

The executive officers (as well as other employees of Lear) participate in the Lear Seating Corporation (LSC) Pension Plan (the "Pension Plan"). The Pension Plan is a qualified pension plan under the Internal Revenue Code, which is integrated with Social Security benefits. Any active employee of Lear who was a participant in the Lear Siegler Diversified Holding Corp. Pension Plan on September 29, 1988, is eligible to participate, and each other eligible employee (non-union employees not covered by another pension plan or hourly 401(k) plan and certain union employees) becomes a participant on the July 1st or January 1st following completion of one year of service. The benefits are funded by employer contributions that are determined under accepted actuarial principals and applicable Federal tax law.

The Pension Plan contains three sets of benefit provisions: the Lear provisions, the Fabricated Products Operations ("FPO") provisions, and the Progress Pattern provisions. The Lear provisions are the principal provisions of the Pension Plan (see below). The FPO and Progress Pattern provisions are grandfathering

10

13

provisions carried forward from the Lear Siegler Diversified Holdings Corp. Pension Plan, and apply to those participants who were covered by such provisions of that plan.

Under the Lear formula, pension benefits are based on a participant's "final average earnings," which is the average compensation for the highest five consecutive calendar year earnings of the last 15 years of employment. Compensation includes all cash compensation reported for federal income tax purposes excluding sales incentive bonuses. Assuming retirement at age 65, the annual retirement benefit (based on a life annuity) is equal to the greater of:

- a. 1.10% times final average earnings times years of credited service (to a maximum of 30 years) plus 0.65% times final average earnings in excess of covered compensation times credited service (to a maximum of 30 years), or
- b. \$177.00 times years of credited service.

Covered compensation is a 35 year average of the Social Security Taxable Wage Base as defined in I.R.S. Notice 89-70.

Participants who are former FPO employees (as of December 31, 1985), or are former employees of Progress Pattern Corporation (as of November 30, 1984), are eligible to have their pension determined through the application of a floor provision, which guarantees a minimum pension benefit. Pension benefits will be calculated in two ways, using first the new Pension Plan formula, and then using the floor provision. If the pension benefits are greater by applying the floor provision, then the participants will receive benefits under the floor provision.

Assuming retirement at age 65, by applying the floor provision the benefit will be:

- a. 0.8% times final average earnings times years of credited service plus
- b. 0.65% times final average earnings in excess of \$10,000 times years of credited service (to a maximum of 35 years).

Participants formerly covered by the Progress Pattern provisions were covered by the FPO provisions on and after October 1, 1989.

The benefits under the Pension Plan become vested if a participant was fully vested in the Lear Siegler Diversified Holdings Corp. Pension Plan, or upon the attainment of five years of combined vesting service under the Lear Siegler Diversified Holdings Corp. Pension Plan, and the Pension Plan, or upon completion of five years of service.

The following table indicates estimated annual benefits payable upon normal retirement at age 65, based on a life annuity for various compensation levels and years of service classification, under the Lear provisions.

* The maximum annual retirement benefit under the Pension Plan for 1994 is \$118,800 and the maximum annual compensation which can be considered in the determination of average compensation for 1994 is \$150,000.

Kenneth L. Way, James A. Hollars and Barthold H. Hoemann are covered by the Lear provisions, and Robert E. Rossiter and James H. Vandenberghe are covered by the FPO provisions. At age 65, it is estimated that Kenneth L. Way will have 15 years of service with Lear; Robert E. Rossiter will have 21 years; James H. Vandenberghe will have 25 years; James A. Hollars will have 20 years; and Barthold H. Hoemann will have 23 years. The average annual compensation for participants covered by the Lear provisions is substantially similar to the compensation reported in the Summary Compensation Table. The compensation covered under the Pension Plan for the fiscal year ended December 31, 1994 was \$150,000 for Robert E. Rossiter and James H. Vandenberghe, both of whom are covered under the FPO provisions.

The Pension Plan grants credit for all years of pension service with Lear Siegler Diversified Holdings Corp. and with Lear, and offsets the retirement benefit payable by the Lear Siegler Diversified Holdings Corp. Pension Plan against the benefit payable by the Pension Plan.

SUPPLEMENTAL PENSION PLAN

Lear has maintained a supplemental pension plan (the "Supplemental Pension Plan") originally established for officers of Lear Siegler, Inc. The Supplemental Pension Plan provides supplemental retirement benefits in excess of those provided by the Lear and FPO plans previously discussed pursuant to a formula based on final average compensation and credited years of service. Employees of Lear who were participants in the Supplemental Pension Plan for officers of Lear Siegler, Inc. at September 30, 1988 are eligible to participate in the Supplemental Pension Plan. Mr. Way is the only officer of Lear who is a participant in the Supplemental Pension Plan. At age 65, Mr. Way will have 30 credited years of service under the Supplemental Pension Plan.

The following table indicates estimated supplemental annual benefits payable upon normal retirement at age 65 based on a life annuity for various compensation levels and years of service classifications under the Supplemental Pension Plan provisions:

SUPPLEMENTAL EXECUTIVE RETIREMENT PLAN

Lear established a Supplemental Executive Retirement Plan (the "Supplemental Executive Retirement Plan") on January 1, 1995 as part of a Pension Equalization Program. Lear's Pension Plan is subject to rules in the Internal Revenue Code that restrict the level of retirement income that can be provided to highly paid executives under the Pension Plan. The purpose of the Supplemental Executive Retirement Plan is to supplement the pensions of highly paid executives under the Pension Plan in order to provide them with a level of retirement income comparable to that of other employees. The benefits under the Supplemental Executive Retirement Plan are equal to the difference between the executive's actual vested accrued pension benefit under the Pension Plan and the benefit under the Pension Plan the executive would have accrued under the Pension Plan if pension limits on qualified pension plans were disregarded. Highly compensated executives, whose pensions under the Pension Plan have been reduced due to limitations on tax qualified pension plans, are eligible to participate in the Supplemental Executive Retirement Plan.

The following table indicates estimated supplemental annual benefits payable upon normal retirement at age 65 based on a life annuity for various compensation levels and years of service classifications under the Supplemental Executive Retirement Plan provisions:

401(K) SAVINGS PLAN

Lear adopted a plan effective February 1, 1989 pursuant to Section 401(k) of the Internal Revenue Code (the "401(k) Plan") for non-union employees who have completed a three month period of service and attained the age of twenty-one. Under the 401(k) Plan, each eligible employee may elect to defer a portion of his or her salary each year. The portion deferred will be paid by the Company to the trustee under the

13

16

401(k) Plan. Lear makes a matching contribution to the plan each month on behalf of each participant in an amount equal to 50% of such participant's salary deferral contributions which are not in excess of 4% of such participant's compensation, provided however, that the matching contribution for a participant in any year may not exceed \$1,150. Matching contributions become vested under the 401(k) Plan at a rate of 20% for each full year of service. For the year ended December 31, 1994, each of the named executive officers of the Company received the maximum matching contribution under the plan of \$1,150.

1988 STOCK OPTION PLAN

Under a stock option plan dated September 29, 1988 (the "1988 Stock Option Plan"), the Company had outstanding, as of March 1, 1995, options to purchase 2,013,018 shares of Common Stock, which are held by certain management investors. All of these outstanding options are fully vested and are exercisable at \$1.29 per share.

1992 STOCK OPTION PLAN

The Company has adopted the 1992 Stock Option Plan (the "1992 Stock Option Plan"), pursuant to which management employees are eligible to receive awards of stock options. The 1992 Stock Option Plan is administered by the Compensation Committee of the Company's Board of Directors. Subject to the terms of the 1992 Stock Option Plan, the Committee selects the management employees eligible to receive awards under the 1992 Stock Option Plan, determines the size of the awards granted thereunder, and administers and interprets the plan.

Under the 1992 Stock Option Plan, the Company has outstanding options to purchase 1,914,000 shares of Common Stock, which are held by certain management personnel. All of these outstanding options are fully vested and generally become exercisable at \$5.00 per share as of September 28, 1996. However, if an option holder's employment with the Company terminates prior to September 28, 1996, other than by reason of retirement, death or disability, such holder's options will not become exercisable until September 1, 2001. Options held by a holder retiring prior to September 28, 1996 will become exercisable on the earlier of two years from the date of retirement or September 28, 1996. If an option holder's employment terminates due to death or disability prior to September 28, 1996, such holder's options will become exercisable on September 28, 1996 and remain so for 90 days thereafter.

1994 STOCK OPTION PLAN

The Company has adopted the 1994 Stock Option Plan (the "1994 Stock Option Plan"), pursuant to which directors, officers and employees of the Company and other individuals who are primarily responsible for the management and success of the Company are entitled to receive awards of options. Each option granted pursuant to the 1994 Stock Option Plan is designated at the time of grant as either an "incentive stock option" or as a "non-qualified stock option."

The 1994 Stock Option Plan is administered by the Compensation Committee of the Company's Board of Directors. Subject to the terms of the 1994 Stock Option Plan, the Compensation Committee determines who among those eligible will be granted options, the time or times at which options will be granted, the number of shares to be subject to options, the duration of options, any conditions to the exercise of options, and the manner in and price at which options may be exercised.

Under the 1994 Stock Option Plan, the Company may grant options with respect to a total of 625,000 shares of Common Stock. In connection with the Company's initial public offering of the Common Stock in April 1994 (the "IPO"), the Compensation Committee awarded options to purchase 498,750 shares of Common Stock pursuant to the 1994 Stock Option Plan, each having an exercise price equal to \$15.50 per share, the public offering price in the IPO. These options generally vest and become exercisable in April 1997.

Any key employee shall be eligible to receive incentive stock options or non-qualified stock options granted under the 1994 Stock Option Plan. Any employee, any director of the Company, whether or not an

14

17

employee, and any other individual who in the judgment of the Compensation Committee performs valuable and important services for the Company shall be eligible to receive non-qualified stock options.

The exercise price of each option issued under the 1994 Stock Option Plan is determined by the Compensation Committee of the Company's Board of Directors, provided that in the case of incentive stock options, the exercise price may not be less than 100% of the grant date fair market value of the shares of Common Stock covered by such options. If an incentive stock option is granted to an employee who owns more than 10% of the total combined voting power of all classes of the Company's outstanding capital stock, then the exercise price thereof may not be less than 110% of the grant date fair market value of the Common Stock covered by such option.

Options granted under the 1994 Stock Option Plan may not be transferred other than by will or the laws of descent and distribution and, during the lifetime of the option holder, may be exercised solely by him. The aggregate fair market value (determined at the time the option is granted) of the shares as to which an employee may first exercise incentive stock options in any one calendar year may not exceed \$100,000. The Compensation Committee may impose any other conditions to exercise it deems appropriate.

EMPLOYMENT AND OTHER AGREEMENTS

Lear has entered into employment agreements with the named executive officers listed in the Summary Compensation Table. Messrs. Way, Rossiter and Vandenberghe have entered into four-year employment agreements dated March 20, 1995. Each is renewable for one additional year on the second anniversary of the agreement and each anniversary thereafter. Messrs. Hollars and Hoemann have entered into two-year employment agreements dated March 20, 1995. Each is renewable for one additional year on the first anniversary of the agreement and each anniversary thereafter. Each of Messrs. Way's, Rossiter's and Vandenberghe's employment agreement provides for an annual base salary of \$530,000, \$385,000, and \$272,000, respectively. Messrs. Hollars' and Hoemann's employment agreements provide for an annual base salary of \$230,000 and \$220,000, respectively. Increases in these salaries, as well as the amount of bonuses, are at the sole discretion of the Board of Directors of the Company.

Each employment agreement provides that (i) upon the death of the employee, Lear will pay to his estate or designated beneficiary his full base salary for an additional 12 months; (ii) upon termination for disability, the employee will receive all compensation payable under Lear's disability and medical plans and programs plus an additional payment from Lear so that the aggregate amount of salary continuation from all sources equals his base salary through the remaining term of the agreement; and (iii) upon termination by the employee for good reason or by the Company without cause, the employee will receive his full base salary to the end of the term of the agreement. If the employment agreement is terminated for cause, the employee is only entitled to receive unpaid salary and benefits, if any, accrued through the effective date of the employee's termination.

COMPENSATION COMMITTEE INTERLOCKS
AND INSIDER PARTICIPATION

The Company's compensation policies are determined and executive officer compensation decisions are made by the Compensation Committee of the Board of Directors (the "Compensation Committee"). The Compensation Committee is comprised of three non-employee directors: Messrs. Hughes, McCurdy and Spalding. Messrs. Hughes and Spalding are principals of The Cypress Group Inc., which is a party to a three-year consulting agreement with Lehman Brothers Inc., an affiliate of the Lehman Funds, pursuant to which it consults with Lehman Brothers Inc. with respect to the management of the Lehman Funds' equity investment in Lear. The Lehman Funds beneficially own approximately 56.3% of the Common Stock of the Company (assuming no outstanding options are exercised).

During the fiscal year ended December 31, 1994, the Compensation Committee authorized the remuneration plans for senior management. In addition, the Compensation Committee exercised administrative power

15

18

with respect to the Company's remuneration plans. The Board of Directors has not rejected or modified any action taken by the Compensation Committee.

No member of the Compensation Committee was, during the fiscal year ended December 31, 1994, an officer, former officer or employee of the Company or any of its subsidiaries. No executive officer of the Company served as a member of (i) the compensation committee of another entity in which one of the executive officers of such entity served on the Compensation Committee, (ii) the Board of Directors of another entity, one of whose executive officers served on the Compensation Committee or (iii) the compensation committee of another entity in which one of the executive officers of such entity served as a member of the Company's Board of Directors.

Lehman Brothers Inc., an affiliate of the Lehman Funds, acted as an underwriter in connection with the Company's public offering of the its 8 1/4% Subordinated Notes, which was consummated on February 3, 1994, and the Company's IPO, which was consummated on April 13, 1994. In addition, Lehman Commercial Paper Inc., an affiliate of the Lehman Funds, is a managing agent and a lender under the Company's Second Amended and Restated Credit Agreement dated as of November 29, 1994.

REPORT OF COMPENSATION COMMITTEE

NOTWITHSTANDING ANYTHING TO THE CONTRARY SET FORTH IN ANY OF THE COMPANY'S PREVIOUS OR FUTURE FILINGS UNDER THE SECURITIES ACT OF 1933 OR THE SECURITIES EXCHANGE ACT OF 1934 THAT MIGHT INCORPORATE THIS PROXY STATEMENT OR FUTURE FILINGS WITH THE SECURITIES AND EXCHANGE COMMISSION, IN WHOLE OR IN PART, THE FOLLOWING REPORT AND THE PERFORMANCE GRAPH WHICH FOLLOWS SHALL NOT BE DEEMED TO BE INCORPORATED BY REFERENCE INTO ANY SUCH FILINGS.

EXECUTIVE COMPENSATION POLICY

The Compensation Committee is responsible for the determination of salaries and other entitlements for the executive officers of the Company as well as all of the Company's compensation programs and policies. The Compensation Committee endeavors to ensure that the compensation programs for executive officers of the Company are effective in attracting and retaining key executives responsible for the success of the Company and are administered in an appropriate fashion for the long term interests of the Company and its shareholders. To this end, the Compensation Committee relies on a three-pronged approach to executive compensation: base salary, annual incentives and long-term incentives. A discussion of each of these aspects of executive compensation follows.

BASE SALARY

Base salaries for the Company's executive officers are established at levels considered appropriate in light of the duties and scope of responsibilities of each officer's position. In this regard, the Compensation Committee considers the compensation practices and corporate financial performance of similarly situated companies based on research provided by independent consultants, although it does not target a specific percentile range within such group. The Compensation Committee focuses primarily on total annual compensation, including incentive awards, rather than base salary alone as the

appropriate measure of executive officer performance and contribution. The base salaries of each of the named executive officers for the Company's last completed fiscal year were initially set pursuant to employment agreements entered into in 1988 and amended in 1991, except for Mr. Hoemann, whose employment agreement was entered into in 1992. However, pursuant to such agreements, the Compensation Committee reviewed such base salaries and made adjustments in 1994 as warranted to reflect sustained individual officer performance.

ANNUAL INCENTIVES

The Company's executive officers participate in the Company's Senior Executive Incentive Compensation Plan or Management Incentive Compensation Plan. Pursuant to such plans, the Company makes annual incentive awards designed to reward past financial performance and the achievement of non-financial goals

16

19

considered important to the Company's future. Awards are made in March or April of each year for performance in the previous year.

The Senior Executive Incentive Compensation Plan provides for the assignment of target annual awards expressed as a percentage of a participant's annual salary, and the actual award, unless modified by the Compensation Committee, varies from 0% to 160% of the target award opportunity based on attainment of financial and nonfinancial objectives. The financial criteria, representing 60% of the bonus potential, are based on achievement of a targeted level of operating income and cash flow for the overall Company based on an approved operating budget. An overall average threshold is calculated, based on the ratio that the actual operating income and actual cash flow bear to the budget operating income and the budget cash flow. No payments are made unless 85% of that threshold is attained, and a maximum attainment is set at 120% of that threshold. The nonfinancial criteria, representing 40% of the bonus potential, are based on the achievement of specific individual objectives. Among the objectives considered by the Compensation Committee in 1994 were: the successful IPO, the restructuring of the Company's debt, the expansion and integration of the Company's operations, the development of a long-term global marketing strategy, the implementation of cost reduction programs, the continued improvement in the quality of the Company's products and the further strengthening of customer relationships. Participants in the Senior Executive Incentive Compensation Plan were selected from executives who were in positions to materially influence the annual financial results of Lear in the targeted areas.

The Management Incentive Compensation Plan provides for the assignment of target annual awards expressed as a percentage of a participant's annual salary, and the actual award will vary from 0% to 140% of the target award opportunity based on attainment of financial and nonfinancial objectives. The financial criteria, representing 50% of the bonus potential, are based on achievement of a targeted level of operating income and cash flow for the overall Company based on an approved operating budget. An overall average threshold is calculated, based on the ratio that the actual operating income and actual cash flow bear to the budget operating income and the budget cash flow. No payments are made unless 85% of that threshold is attained, and a maximum attainment is set at 120% of that threshold. The nonfinancial criteria, representing 50% of the bonus potential, are based on the achievement of specific individual objectives. The objectives considered by the Compensation Committee in 1994 were similar to those under the Senior Executive Incentive Compensation Plan, although specific objectives were more narrowly tailored to reflect each participant's particular corporate responsibilities. Participants in the Management Incentive Plan were selected from managers who were in positions to materially influence the annual financial results of Lear in the targeted areas.

In addition to awards under the Senior Executive Incentive Compensation Plan and the Management Incentive Compensation Plan, the Compensation Committee awarded additional bonuses to certain senior executives based upon the financial and nonfinancial criteria considered under the Senior Executive Incentive Compensation Plan as well as in consideration of the roles played by those individuals in the integration of Ford Motor Company's North American seat cover and seat systems business, which was acquired in November 1993, and the acquisition of the seat systems business of Fiat S.p.A., which was acquired in December 1994.

LONG-TERM INCENTIVES

Long-term incentives are primarily provided through the grant of stock options. The Company has no long-term incentive plan and has granted no stock appreciation rights. The primary objective of the stock option grants is to align the interests of the executive officers with those of the shareholders. In addition, the stock option grants give Lear a significant advantage in attracting and retaining talented employees, officers and directors, and provide an incentive to selected key employees, officers and directors of Lear and its subsidiaries who, in the judgment of the Compensation Committee, have substantial responsibility in the continued success of the Company. The number of options previously awarded to and held by executive officers is reviewed but generally not an important factor in determining the size of current grants.

In 1994, each executive officer was awarded stock options pursuant to the 1994 Stock Option Plan. These options generally vest and become exercisable in April 1997 and have an exercise price of \$15.50 per share, the

17

20

offering price in the Company's IPO. Under the 1994 Stock Option Plan, options may be designated as incentive stock options or non-qualified stock options. The Compensation Committee has the authority to determine the individuals to whom the stock options are awarded and the terms of the award.

Executive officers are also eligible to participate in the Company's 401(k) Plan. Under the 401(k) Plan, the Company makes a matching contribution for each participant equal to 50% of the participant's contribution, up to \$1,150 for each participant. The Company's matching contributions vest over a five-year period.

CHIEF EXECUTIVE OFFICER COMPENSATION

During the fiscal year ended December 31, 1994, the compensation of Kenneth L. Way, Chairman and Chief Executive Officer of the Company, was established pursuant to an employment agreement entered into in 1988 and amended in 1991. Under the terms of this agreement, Mr. Way received salary compensation of \$502,000 in the last fiscal year and was eligible to participate in the Company's Senior Executive Incentive Compensation Plan, pursuant to which he was awarded \$530,000 for services performed in 1994. In addition, the Compensation Committee awarded Mr. Way an additional bonus of \$300,000 and options with respect to 46,000 shares of Common Stock under the 1994 Stock Option Plan. Mr. Way's award under the Senior Executive Incentive Compensation Plan, his additional bonus and his option award were based in large part on the financial and non-financial criteria considered under the Senior Executive Incentive Compensation Plan. In addition, the Compensation Committee considered Mr. Way's efforts in guiding and developing the rapid and continued expansion of the Company, overseeing the successful integration of Ford Motor Company's North American seat cover and seat systems business, which the Company acquired in November 1993, and the implementation of a more decentralized management structure.

TAX TREATMENT OF EXECUTIVE COMPENSATION

To the extent readily determinable and as one of the factors in its consideration of compensation matters, the Compensation Committee considers the anticipated tax treatment to the Company and to the executives of various payments and benefits. Some types of compensation payments and their deductibility depend on the time of vesting or exercise of previously granted rights (for example, the amount of compensation attributable to the exercise of non-qualified stock options generally will depend upon the spread between the fair market value of the shares purchased on the date of exercise and the exercise price). In addition, for taxable years beginning on or after January 1, 1994, Section 162(m) of the Internal Revenue Code of 1986 generally limits to \$1 million per person the Company's federal income tax deduction for compensation paid in any year to its Chief Executive Officer and each of its four other highest paid executive officers to the extent such compensation is not "performance-based" compensation. Under certain circumstances, compensation paid to an executive officer of the Company could exceed the qualifying compensation limit for deductibility under Section 162(m). The Compensation Committee will consider ways to preserve the deductibility of compensation payments and benefits in light of the limitation on deductibility under Section 162(m), while retaining the discretion necessary to ensure executive officers are compensated

in a manner consistent with its compensation objectives.

This report is submitted by David P. Spalding, Jeffrey P. Hughes and Larry W. McCurdy, being all of the members of the Compensation Committee.
